

The MLA Executive Board voted to extend the current strategic plan until July 2022

## INTRODUCTION

This plan, which sets the course for the association for the next 3 years, is the result not only of the hard work of previous planning groups, but of a 6-month process that commenced last November. Acknowledging the multiple demands on members' time, the Executive Board determined we would streamline the planning as much as possible. Our MLA Steering Committee, with additional volunteers from the membership, formed the planning work group chaired by Denise Davis. A survey of members was conducted and the committee analyzed and used the resulting data to build on the existing plan to create the document that will serve as the guide for MLA's next 3 years.

Because we are an association of equals as library professionals, we didn't want to be prescriptive; instead we want to engage and challenge the leadership and members of the Divisions, Panels, and Interest Groups to use the Vision, Mission and Goals to create the specific actions in their annual work plans and decide what metrics to use to evaluate progress. We expect that these metrics will be chosen as work plans are developed and will likely comprise a separate document as a supplement to this plan.

Over the next three years the Steering Committee will play an important role in implementing various aspects of the plan. For example, some aspects of the plan such as improved communication with members, succession planning for MLA itself, planning for possible professional marketing consultation, as well as annual assessments of the plan to keep us on course will be the responsibilities primarily of the Steering Committee.

Libraries of all types have never been more necessary and vital than they are today. With this plan's Goals we will support, strengthen and advocate for all of our Maryland libraries and our library staff and ensure that we are equipped to meet the significant challenges ahead.

Many thanks to the people who participated in the planning.
