Location: Health Sciences & Human Services Library
Job Title: Data Services Librarian
Vacancy Number: 2400012K

Responsibilities:
The Health Sciences and Human Services Library (HSHSL) at University of Maryland, Baltimore (UMB) seeks a Data Services Librarian to provide robust research data-related services for UMB faculty, staff, and students. This position advances the Library's efforts in data sharing and in research data management, discovery, and access.
The Data Services Librarian is a member of an exceptional team responsible for advancing the Library’s research support and educational goals. The HSHSL serves UMB’s schools of Dentistry, Medicine, Nursing, Pharmacy, Social Work, and the Graduate School.
The Data Services Librarian is a member of the Data and Bioinformation Services Department, and a core member of the Library's Center for Data and Bioinformation Services (CDABS). The librarian also collaborates with faculty and staff within the HSHSL and with partners throughout the University.
- Consults with faculty, students, and staff about research data.
- Develops and leads instructional programming on data-related topics and tools.
- Assists researchers in locating and accessing open and secondary datasets for use in research and with writing data management plans.
- Identifies data management software and tools and develops services supporting the discovery, management, and analysis of research data.
- Provides support for CDABS data visualization service and the Data and Bioinformatics Workstation.
- Engages with University partners to integrate research data services into academic programs and administrative units.
- Develops marketing strategies and initiatives to promote research collaboration, the UMB Data Catalog, and data sharing programs of the HSHSL.
- Strengthens the Library's commitment to diversity, equity, and inclusion.
- Engages actively in committees within the HSHSL, the University, and professional organizations.
- Engages in professional development, service, and publication/presentation opportunities

BENEFITS/TUITION REMISSION:
Generous benefits include choice of retirement, medical, and dental plans; 22 days of annual leave; 15 days of sick leave; 3 personal days and 14 holidays. Regular employees, as well as their spouses and dependent children, may receive tuition remission for most programs at many campuses of the University System of Maryland.

Requirements: Master's degree from an ALA-accredited program.
Knowledge of the research data lifecycle and data management and sharing best practices.
Interest in becoming proficient with research tools such as R, Python, SAS, SPSS, or STATA.

Salary Range: $61,500 minimum, commensurate with experience. Other compensation associated with this position may include a relocation allowance.
